

What Does NYSCOPBA Do For You?

Job Security

As a member of NYSCOPBA, there is a level of job security to which you are entitled. Union representatives and legal representation are available to provide you support for any situation that might threaten your job security. NYSCOPBA fought on your behalf for Anti-Privatization legislation to provide you continued job security as a public employee. Under Articles 5, 7, and 8, your union rights are protected for due process in disciplinary hearings, the ability to file grievances, and your rights to arbitration.
